provided to all students to ensure they have access to necessary support services and understand New Zealand cultural values.

- CNSSTEI has multi-lingual student support workers

2. Promoting physical and mental health awareness

CNSSTEI has been assisting learners manage their physical and mental health through implementing a variety of workshop and sharing useful information for accessing public services. This is in alignment with the Learner-Centric Education and Support Model of CNSSTEI that students are supported not only in their language learning, but also in their physical and mental status enhancement.

3. Proactive monitoring and responsive wellbeing and safety practices

CNSSTEI has been proactive in keeping wellbeing and safety practices through the timely and accessible communication system (WeChat-based groups with tutors and student support workers available) to constantly identify issues and provide support for students where necessary.

For instance, making instant transitions to online delivery mode were made responsively in case of severe weather conditions and other variables that prevent classes from carrying out onsite deliveries.

Findings from gap analysis of compliance with key required processes

Organisational structures to support a whole-of-provider approach to learner wellbeing and safety

	Identified gaps in compliance with key required processes
Outcome 1: A learner wellbeing and safety system	The learner wellbeing and safety system should be shared and reviewed annually across the entire community, including managers, programme leaders, tutors, learners, and their whānau. It should also be incorporated as an important part of the induction process for new teaching staff.
Outcome 2: Learner voice	Different strategies need to be considered and implemented to effectively engage stakeholders and gather their input on supporting learner wellbeing.

Wellbeing and safety practices for all tertiary providers

	Identified gaps in compliance with key required processes
Outcome 3: Safe, inclusive, supportive, and accessible physical and digital learning environments	Digital literacy development is crucial for senior learners, as it enables equitable access to learning opportunities and social resources. The digital literacy component should be included in educational programmes designed to enable and empower senior migrants to integrate into New Zealand society.
Outcome 4: Learners are safe and well	Emergency procedures are to be reviewed and updated periodically and this component needs to be incorporated into professional training for all teachers and student support staff.
